

Assembly Guide MOUNTING MAGNOLIA BLOOM ONTO STEMS

SUITABLE FOR INDOOR USE ONLY

ENSURE POWER PLUG IS DISCONNECTED FROM POWER SUPPLY.

Note: When Installing Blooms, it is important that the Stems are held firmly in place.

FIRST STEP:

Lift the Magnolia Body Assembly into place over the Lampholder enclosure, and screw the shade ring onto the Lampholder Assembly until the Body is held firmly in place.

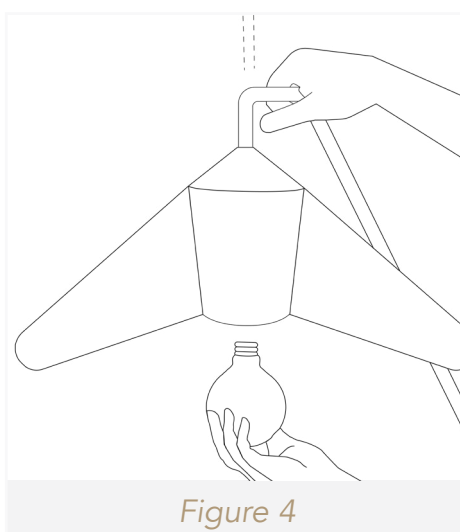

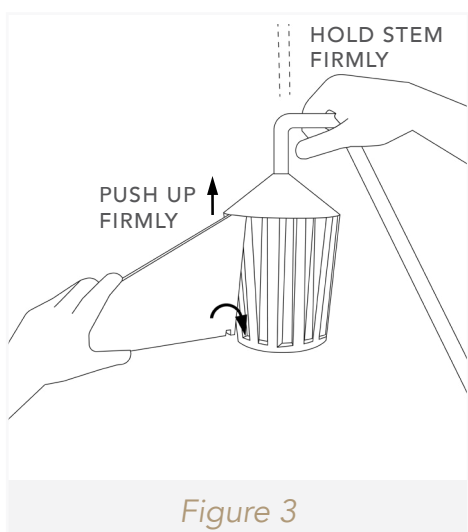

Figure 1.

SECOND STEP:

Insert the top of a Petal into the top of a slot in the Body.

Figure 2.

Assistance is recommended for the first step to prevent the Floor and Table Mounted Stems from disengaging from the Base Rods.

THIRD STEP:

Firmly push the Petal up (this will deform the retaining spring) to enable the notch in the bottom of the Petal to sit over the bottom of the Body. Repeat Steps 2 and 3 until all Petals have been installed.

Figure 3.

FOURTH STEP:

Screw the LED lamp into the Lampholder.

Recommended Lamp:
G.E.LightingLED/E27/A60
Opal Glass.

Figure 4.

To remove the Petals, reverse Steps 2 and 3.

Caution: Grip and lift the Rod Assembly at the Base when moving the Floor or Table Mounted Blooms to prevent the Stem from disengaging from the Base. Alternatively, remove the Bloom from the Stem, then the Stem from the Base Assembly.
